Add-on Course on Internet and Information Retrieval (2021-22).

Preamble:

In recognition of the transformative role played by the internet in modern information landscapes, this preamble emphasizes the paramount importance of understanding Internet and Information Retrieval. Rooted in the pursuit of knowledge accessibility and usability, it underscores the need for a comprehensive exploration of search algorithms, semantic web technologies, and user-centric design principles. With a commitment to navigating the complexities of online information, this preamble envisions a course that empowers individuals to harness the potential of information retrieval, contributing to the evolution of a more connected and informed global society

Objectives:

- Develop Proficiency in Information Retrieval Techniques
- Explore Emerging Technologies in Information Retrieval
- Cultivate User-Centered Design Principles

Instructional Design:

This course is of 30-hour duration which includes theory classes and assignments etc.

Medium of Instruction: English

Course Structure and Examination Scheme:

Total contact hours:

Theory Classes: 30 Hours

Mode of Examination:

MCQ Exam of 25 Questions: 50 Marks

Eligibility: Students enrolled in LLB Programme

Report and Outcomes

Name of the Course: Internet and Information Retrieval

Number of Student Enrolled: 50

BOS Meeting Date: 14.3.21

Start Date of the Course: 15.3.21

End Date of the Course: 27.7.21

R V Bidap Law College conducted a course on Informed Decision-Making in Information management. Individuals completing the course are well-equipped to make informed decisions in information management. This outcome involves understanding the legal and ethical aspects of information retrieval. Proficiency in Search Engine Optimization (SEO).

Outcome of the Course

1. Advanced Understanding of Information Retrieval Concepts Successful completion of the Internet and Information Retrieval course equips individuals with an advanced understanding of fundamental concepts in information retrieval.

2. Proficiency in Search Engine Optimization (SEO) Techniques Graduates of the course develop practical skills in optimizing content for search engines, enhancing the visibility of web pages

3. Application of Information Retrieval Models and Algorithms Participants gain hands-on experience applying various information retrieval models and algorithms to real-world scenarios.
